Coursework Report – 5COSC019C Object Oriented Programming

Student Name: M.G.Yasiru Jayamadu
Student ID:20210304 /UoW No-w1867435

Have you submitted the video with the demonstration of your system?

<u>Phase 1 – Design and classes implementation</u>

Task	Did you	Student's comments (To which extent you
	attempt the	implemented the task? Have you encountered
	task?	any problems or issue?)
Design a UML Use Case Diagram of	Xes No	Yes I Successful compelted the task without
your system (submitted in a separate		any issue
file).		
Design a UML Class Diagram of your	Xes No	
system (submitted in a separate file).		Yes I Successful compelted the task without
		any issue
Implementation Class Person	Xes No	
		Yes I Successful compelted the task without
		any issue
Implementation Class Doctor	⊠ Yes ☐ No	
		Yes I Successful compelted the task without
		any issue
Implementation Class Patient	⊠ Yes □ No	
		Yes I Successful compelted the task without
		any issue
Insulantantian Class Consultation	No No	
Implementation Class Consultation	Yes No	Vos I Suggessful compolited the task without
		Yes I Successful compelted the task without
		any issue
Implementation Interface	Yes No	Yes I Successful compelted the task without
WestminsterSkinConsultationManager		any issue
** Cottimioter of the compart at the transfer		any issue

<u>Phase 2 – Console menu implementation</u>

Task	Did you attempt the	Student's comments (To which extent you implemented the task? Have you encountered
	task?	any problems or issue?)
Add a doctor in the system with all the relative information (max 10 doctors)	Yes No	Yes I Successful compelted the task without any issue
Delete a doctor from the system selecting the medical licence number. Display a message to confirm he/she has been removed and the total number of doctors in the centres.	Yes No	Yes I Successful compelted the task without any issue
Print on the screen the list the doctors in the centre with all the relative information. The list should be ordered alphabetically.	Yes No	Yes I Successful compelted the task without any issue
Save in a file entered by the user so far. The user should be able to load back the information running a new instance of the application.	Yes No	Yes I Successful compelted the task without any issue

Phase 3 – GUI Implementation

Task	Did you attempt the	Student's comments (To which extent you implemented the task? Have you encountered
	task?	any problems or issue?)
Doctor list visualisation. Sorting	Xes No	
alphabetically.		Names are automatically sorted button is not working
The user can select a doctor and add a consultation.	∑ Yes ☐ No	Yes I Successful compelted the task without any issue

In the consultation the user can add all the patient details.	Xes No	Yes I Successful compelted the task without any issue
The user can select the date/time of	Xes No	
the consultation considering that a		Yes I Successful compelted the task without
doctor cannot have more than one		any issue
consultation at the time.		
The user can enter and save the cost	Yes No	Yes I Successful compelted the task without
for the consultation. (£25 per hour		any issue
and only the first one £15).		
The user can add some notes (text	Xes No	Yes I Successful compelted the task without
information or images). This		any issue
information has been encrypted.		
	I	

Phase 4 – Testing and system validation

Task	Did you attempt the task?	Student's comments (To which extent you implemented the task? Have you encountered any problems or issue?)
Test plan. (Submitted in a separate file).	Yes No	Yes I Successful compelted the task without any issue
Implementation of an automated unit test for each scenario in the console menu.	Yes No	I try to the task But I failed to do that
Error Handling across all the code, input validation and code quality.	∑ Yes ☐ No	Yes I Successful compelted the task without any issue
